Pat's Pointers
By Pat Fritze
Oklahoma City Chapter President

Vol. 20
Issue: Dec-Feb 2011

It's must be Holiday time. The tree is up and the outside lights are glowing (Thanks to my husband). Now to finish the sewing and wrapping the packages and of course thinking about Christmas dinner, things are looking good.

It is also the end of the year. Which means my term as your President is almost over. I again, thank all of you for supporting ASG and making this a good year for our chapter. I want to Thank my great CAB members. They have been a joy to work with or should I say play with. It certainly made my job as President very easy. We have a several new members on the CAB for next year and it too will be a great year under their leadership. Please continue to support them as you have done for me. I love ASG and especially all my sewing friends, that I wouldn't even know if it weren't for ASG. You all are truly my friends.

There have been some great programs this past year and know there will be many new and different things next year. In Jan. we will be having a special guest, Kayne Gillaspie, who has a designer gown business in Norman and was also on Project Runway in the past. He has made gowns for Miss America and Miss Oklahoma. It is a privilege to have him speak to our group. Please invite all your friends, so we can have a good showing for him. They don't have to be members, but of course if they would like to join that would be Ok also.

I am so glad I am a part of ASG and know you are too.

Thank you again. Pat Fritze OKC ASG President 2010

Kayne Gillaspie, designer of Jonathan Kayne of Norman, will be our speaker for the January 10th. He was one of the finalists on the TV hit show Project Runway, and has designed MANY National pageant winners gowns. Come hear him speak about his inspiration and learn more about a local talent here in the Metro that is getting National recognition!!

CAB Meeting The Chapter Advisory Board (CAB) will hold their first 2011 meeting on Tuesday, January 4th. We will meet at 6 p.m in the conference room of Rustyne's accounting office. It is located at 13320 N. MacArthur Blvd in NW OKC. All officers and CAB members are asked to attend. If you need to be excused, please contact Kerry McNutt. I hope to see you there.

If anyone has any suggestions or ideas for a program, speaker, or activity, please let one of the CAB members know so it can be discussed at this meeting.

Are you unsure which is the lengthwise and the crosswise grain of the fabric?

The way to tell is to let the fabric SING to you.

Here's how:

Place one edge of the fabric in each hand with some slack in the fabric.

Pull the fabric taught

It will make a sound.

Listen to the pitch of that sound

Now repeat in the other direction

You will notice a difference in the pitch of the sound

The HIGHER Pitch is the lengthwise grain

The LOWER Pitch is the crosswise grain.

Sewing Machine Accessories, like the machines themselves, had their successes and failures.

One gadget that never quite caught on was a musical sewing machine cover, patented in 1882, that held a player-piano roll and was run by treadle power. The treadle also activated a sewing machine fan patented in the 1870's and marketed for a dollar.

REPORT FROM FALL QUILT MARKET 2010

I love going to market, it is an opportunity to see new trends, find new ideas and generally spark my creativity. For a shop owner like myself it is also a grueling task. While seeing new trends is exciting, I cannot base all my purchases on them, I have to plan my buying for what I think YOU will buy. This is where it really gets hard, I have looked for a crystal ball that would help this, but so far all I have to go on is my gut feeling of what will sell.

I must confess to you that when I started my shop I had no idea that I was supposed to be shopping for my customers' tastes and not mine. It actually took a few years to realize that even though I loved lime, most customers actually preferred Thimbleberries in 2001. Trends have changed and certainly my tastes have changed in fabric, as I am sure yours has too.

Trend #1 – Modern Fabric and Modern Patterns

What the heck is this? Modern fabric is all about color – clean, crisp color along with bright solids and new colorizations. At market I went to a class in the Schoolhouse for shop owners that Kathy Miller of Michael Miller fabrics spoke at. She said that clear, white backgrounds were very popular with the new designs. I invested in some great prints from Alexander Henry that are best described as modern with a touch of oriental mixed in. For quilt patterns, think geometric for many of them and large pieces.

While this style is not for everyone, I still think it will take hold and stay for quite awhile.

Trend #2 – A ruler for everything

Heavens to Betsy, there seems to be a million rulers out there! Often one ruler can do several things – if you know how to use it. There is a new ruler out by Checker that seems to fit that bill, created by Karen Montgomery. This rectangle ruler can even draw circles.

Trend #3 – Knit fabric

Michael Miller had some gorgeous cotton knits out, I didn't buy any this go round but expect I will at spring market. These are for garments, which by the way, also seem to be a big trend. The young sewer might be just as likely to make a skirt as a quilt. I predict garments and home decorative sewing will really grow in the next several years.

So what did I buy? Modern fabric and modern patterns but still a lot of the traditional designs too. Ryan McKenna batiks, patterns for many small projects, Wildflower Rhapsody by Timeless Treasures were in that mix.

My shop is still a quilt shop, but I see sewing changing and personally I love it, garments, gift ideas and more creativity in designs. Although I still get a lot of "I want to make it just like you did.", there are many customers that tell me they want to make the project their own by pulling their own fabrics, now that really makes it fun when I go shopping!

You Know you are a Quilter If.....

There's more Fabric in the House than Food. "Fat Quarters" are not the heaviest part of your body. Your ironing board is always set up but you never iron clothes. You think of your job as an interruption of your quilting time. You pet Fabric. People are always picking threads off you. You can measure a scant 1/4 by eye. "Featherweight" Doesn't mean Boxer. Your "UFO's" are not from outer space. You clean up your sewing room & they think you are leaving.
